

GASGAS ES 700 - 2024

The ES 700 is a lively 1-cylinder enduro machine, a large-volume bike that is perfect for mixed terrain.

To develop the GASGAS ES 700, our first street bike, we used in-house expertise, new ideas and the latest technology to build a bike that offers a distinctive, playful riding experience. The power of the 1-cylinder engine with 74 hp and 692.7 cm³ displacement is delivered via an extremely cool ride-by-wire system that ensures crisp throttle response and extremely precise delivery of the linear engine power. The bike is also equipped with the latest electronic driver assistance systems.

This means you can tailor the ES 700 exactly to your requirements. With Brembo's state-of-the-art ABS and brakes, you're always in full control. And the ES 700 also offers an immensely long service interval of 10,000 kilometers. So you can cover really long distances before you have to go to the dealer.

SPECIFICATII TEHNICE

ENGINE

- TORQUE: 73.5 Nm
- TRANSMISSION: 6 courses
- COOLING: Liquid cooling
- POWER IN KW: 55kW
- STARTER Electric starter
- HUB: 80mm
- DRILLING: 105mm
- COUPLING APTC(TM) anti-hopping clutch, hydraulically operated
- CO₂ EMISSIONS: 99g/km
- DISPLACEMENT: 692.7 cm³
- EMS Keihin EMS with RBW, double ignition

- DESIGN TYPE 1-cylinder, 4-stroke engine
- LUBRICATION Pressure circulation lubrication with 2 oil pumps

LANDING GEAR

- TANK CAPACITY (APPROX.): 13.5L
- SECTION Bosch 9.1 MP (including cornering ABS and off-road mode, can be switched off)
- FRONT BRAKE DISC DIAMETER: 300mm
- REAR BRAKE DISC DIAMETER: 240mm
- FRONT BRAKE: Brembo two-piston floating caliper, brake disc
- REAR BRAKE: Brembo single-piston floating caliper, brake disc
- CHAIN: 520 X ring
- FRAME DESIGN: Chrome-molybdenum trellis frame, powder-coated
- FRONT SUSPENSION: WP XPLOR-USD, Ø 48 mm
- GROUND CLEARANCE: 269mm
- REAR SUSPENSION WP XPLOR with Pro-Lever deflection
- SEAT HEIGHT: 935mm
- HEAD ANGLE: 62.3°
- FRONT SUSPENSION TRAVEL: 250mm
- REAR SUSPENSION TRAVEL: 250mm
